Give the top portion of this form to the payer of your pension or annuity; keep the lower part for your records.

Purpose of Form. — Unless you elect otherwise, the law requires that personal income tax be withheld from payments of pension and annuities. The marital status and the withholding allowance claimed on your W-4P can be used to figure your State tax withholding. The DE 4P allows you to:

- (1) Claim a different number of allowances for California personal income tax withholding than for federal income tax withholding.
- (2) Elect not to have income tax withheld from your periodic, or nonperiodic, pension or annuity payments.
- (3) Elect to have income tax withheld on periodic or nonperiodic payments based on:
 - (a) the number of allowances and marital status specified.
 - (b) a designated dollar amount.
- (4) Change or revoke the DE 4P previously filed.

Withholding from Pensions and Annuities.— Generally, withholding applies to payments made from pension, profit-sharing, stock bonus, annuity, and certain deferred compensation plans, from individual retirement arrangements (IRA), and from commercial annuities. Withholding also applies to property other than cash distributed.

Periodic and nonperiodic payments from all of the items above are treated as wages for the purpose of withholding.

A periodic payment is one that is includible in your income for tax purposes and that you receive in installments at regular intervals over a period of more than one full year from the starting date of the pension or annuity. The intervals can be annual, quarterly, monthly, etc. For example, if you receive a monthly pension or annuity payment and will continue to receive payments for more than a year, the payments are periodic. However, distributions from an IRA that are payable upon demand are treated as nonperiodic payments.

There are some kinds of periodic and nonperiodic payments for which you can not use the DE 4P since they are already defined as wages subject to income tax withholding. Your payer should be able to tell you whether the DE 4P will apply.

Your certificate is usually effective 30 days after you file the form. The certificate stays in effect until you change or revoke it.

Methods of Withholding.— The payer can use one of the following three methods:

- (1) An amount determined by using the State wage withholding tables. Payee completes lines 2 and 3 above.
- (2) A dollar amount that you designate. Payee completes line 4 above.
- (3) Ten percent of the amount of federal withholding computed pursuant to Section 3405 of the Internal Revenue Code.

(Continued on back)

Completing the Form.— Fill in your name, address, social security number, and the identification number (if any) of the pension or annuity.

Line 1, Exemption from Withholding.— Check this box if you do not want any tax withheld from your payment. You do not have to give a reason for claiming the exemption from withholding.

Caution: Remember that there are penalties for not paying enough tax during the year, either through withholding or estimated tax payments. You may be able to avoid paying quarterly estimated tax to the Franchise Tax Board by having enough tax withheld from your pension or annuity using the DE 4P.

Revoking the Exemption from Withholding.— If you want to revoke your previously filed exemption from withholding for periodic and nonperiodic payments, file another DE 4P completing lines 1, 2, 3 or 4.

Line 2, Withholding Based on Specified Withholding Allowances.— If you want withholding to be based on a specified number of allowances, write the number on this line and check the filing status box you want. The worksheets accompanying this form may be used to figure your withholding allowance.

Line 3, Multiple Pensions/More than One Income. — Indicate additional amount to be withheld from each payment. You may use Worksheet C, accompanying this form to determine the additional amount.

Line 4, Withholding a Designated Dollar Amount. — Indicate dollar amount you want withheld on this line (in lieu of claiming withholding allowances).

INSTRUCTIONS 1 — ALLOWANCES

When determining your withholding allowances you must consider your personal situation.

Do you claim allowances for dependents or blindness?

Are you going to itemize your deductions?

Do you have more than one income coming into the household?

If you have a working spouse or more than one job or income, it would be best to figure the total number of allowances you are entitled to claim on all jobs using the worksheets from only one DE 4P. Allowances can then be claimed with one employer only, or split among employers.

WORKSHEET A

INSTRUCTIONS 2 — ADDITIONAL WITHHOLDING ALLOWANCES

If you expect to itemize deductions on your California income tax return, you can claim additional withholding allowances. Use this worksheet to determine whether your expected estimated deductions may entitle you to claim one or more additional withholding allowances. If you have a complex tax situation or numerous itemized deductions use last year's FTB 540 form as a model to calculate this year's withholding amounts.

You may reduce the amount of tax withheld from your wages by claiming one additional withholding allowance for each \$1,000, or fraction of \$1,000, by which you expect your estimated deductions for the year to exceed your allowable standard deduction.

Compute 6% of the amount over \$18,068

(\$19,913 - \$18,068 x .06 = \$110.70.)

\$110.70

Add the marginal tax amount.

\$445.43

Enter the total on line 8.

Total \$556.13

8. \$ 556.13

- | | |

13. \$ 145.20

- | | |
|--|---------------------|
| 14. Subtract line 13 from line 12. Enter difference on line 14. | 14. \$ 344.93 |
| 15. Divide line 14 by the number of pay periods remaining in the year.
(\$344.93 / 12 payroll periods = \$28.74.) | 15. \$ <u>28.74</u> |

Also enter \$28.74 on line 3 of the DE 4P.
